Shri V B Rajus Sir I would like the hon Member, who
has just now moved the amendment to examine whether his

amendment fits in clause No (2)

Sir what I want the hon Member to examine is whether
the insertion should be after sub clause (2) or anywhere else

Mr Speaker I think it should be to clause No (2) only

Shu K Ram Rei'dy It is a printing mutake Su

SIn VD Deshpande Sir I want to submit that the amend ment which was just now moved by Shii Ram Reddy pertuns to clause No. 4

proper Housing for Labour Shrs V B Rayu Sir I am prepared to accept this much port on

any sum cained as overtime pay bonus or additional remun eration of the nature aforesaid

So fat I am prepared to accept

Mr Speaker Any sum payable to such person

Shri V B Raju I am not prepared to accept that portion

سے عوی ڈی دہسائے آ سل سسر کے س (Accept) کے That means dearness allowances . من و عهم اسرس بال

Shri V B Rayu Yea

So the hon Member may reconsider whether he maists upon that

Mr Speaker There is another factor not only dearness allowance

Termination of his employment

Shrs V B Raju That much portion

By reason of the termination of his employment

I do not mind omitting these words also because when he goes out of employment there is no responsibility of paying anything and he will not continue to be in the house. Even that portion also I am prepared to delete

and any sum payable to such person to counterect abnor mai economic conditions

Shru V B Ratu I am accepting this much

any sum earned as overtime pay bonus or additional remuneration for incressed output or any other additional remun eration of the nature aforesaid or any sum payable by reason of the termination of his employment

for proper Housing for Labour My Speaker So any sum psyable to such person to coun truect abno mal economic conditions that portion is not accepted

SI 1 M S Ranabagams (Wuangal) Speaker Sit I wish that the ion Minister should consider the acceptance of it be ause the defin tion of wages in the Wages Act also should be tiken into consideration in this context. If not I think it is got g to affect the Workmen's compensation when the worker goes to the commiss on under the Workmen's Compensation Act tleacfore with that the definition of wages which the hon M stee no v anta to recept should be a tune with the definition of vige in the Workmen's Compensation Act and also payments made unde that Act If not they may not full us line and the manage nents or the one side and the workers on other may prese that defin tion of wage into service which is more advantageous to there high may result in fresh complications on the ishour neue I therefo e desize that the definition be one and the same in all the Acta

Shu V B Ranu For certain conditions or objectives that are laid down in a particular Act the definit on of a particular term is taken in a particular manner. The definition of wages in the Act will be I mited only for this Act and it will not influence any other definition in any other Act. As such the hon Member need not have any apprehension because every Act has got its I mitations and the Government will imp lement it accordingly

Mr Speaker Is the term wages defined in any other Act

Shu V B Rayu Yos Sur

Shr: M S Rayalingam Can wages be defined in a diffe rent way in each and every Act

Mr Speaker Well it is a matter of opinion

Shri M S Rayalingam. It is going to bring in complications agein Sir

Shn V B Ragu Even the word worker has got different definitions

M Speaker Let the hon Munister mark out the words accepted by him

a Bill for making Provision for proper Housing for Labour

Shrs V B Raju Speaker Sn I will read the whole para graph as amended

Weges means all remutes aton capable of he ng expressed in terms of money carried under the terms of he contract of employment express o implied by singular depends in respect of his employment or of west done in such employment and includes any sum payable to such one of the contract of the contract

Mr Speaker What will happen to the test of the portion

Any sum carned as overtime pay bonus or additional remuneration for increased output or any other additional remuner ation of the nature ofcressid up to this and again by reason of the termination of his employment

Mr Speaker I think the hon Minister himself has deleted those words

Shrt L K Shroff I think Sir it would be correct to delete the words to commerce abnormal economic conditions because these words are unaccessary for the words that come Intel on Any sum perable by reason of the termutation of the employ

ment —that is necessary

Shri V D Deshpande any sum payable to such person to complement abnormal economic conditions

Shrs LK Shroff Simply the words to counteract abnormal economic conditions or may be deleted so that the other words coming later may have some meaning

Mr Speaker Then it would read like this

any sum payable to such person by reason of the termination of his employment

What does the hon Minister agy?

Shra V B Rayu I have no objection Sir

Mr Speaker So the hon Minister accepts this Then I shall read again the definition of wages as accepted so that there may not be any confusion

Wages means all remuneration capable of being expressed in terms of money earned under the terms of his contract profer Housing for Labour of employment expension in respect of his employment or of work done in such employment and includes any sum payable to such person to counterent abnormal seconomic conditions but does not include those matters that are mentioned in clauses (a) to (f) cl (f) runs as follows

(f) any sum earned as overtune psy bonus or additional remuneration for increased output or any other additional remunciation of the nature aforesaid and any sum payable to such person by reason of the termination of his employment.

Shri M S Rapalangam I seek some clarification Sir Here any sum to counteract thonormal economic conditions—thus is being omitted Does it mean that it forms part of the contract—express or implied referred to in the main definition?

Shri V.B. Roys. The construction of the sentence is that cannot be induced with the express or implied contact or anything of thirt nature. Wages metude any sum and destroes allowance. That explains it is a numbel. It is need not be inheed up with the control explains it is not need by the separate.

Mr Speaker I would put the amendment as finally accepted to vote. The question is

(a) (x) In this Act unless there is anything repugaant in the subject or context

(sup) Wages means all remuneration capable of beinger correction from the ramed under the terms of his order of employment express or implied by an employed person in respect of his employment or of work done in such employment and includes any sum; payable to such person to counteract shourmal economic conditions but does not include—

(a) the value of any house accommodation supply of light water medical attendance or other amonity or of any service excluded by general or special order of the Government

(δ) any contribution paid by the employer to any personal fund or provident fund

(e) any travelling sllowance or the value of any travelling

(d) any sum paid to the employed person to defray special expenses entailed on him by the nature of his employment or (e) any gratuity payable on discharge,

(f) any sum ca ned as overtime pay bonus or add tional remunerat on for one essed output or any other additional remun crat on of the natu e aforesa d any sum pryable to such person by season of the term nation of his employment

Shir V D Deshpande Mr. Speaker Su I beg to move On page 4 for sub clause (2) of Clause 4 of the said Bill substitute the following sub clause namely

- (a) The Corporation shall consist of the following members (a) The hon the Min ster for Labour who shall be the Chauman
- (b) Bix persons elected by the Hyderabud Legislative Assem bly according to the principle of proportional representation by means of a single transferable vots
- (c) Three persons elected by the representatives of the interests of the employers
- (d) Three persons elected by the representatives of the interests of the employees according to the principle of propor tional representation by means of a single transferable vote
- Mr Speaker Since they are to be elected there is no question of consultations

Shri V D Deshpande Yes but the number is the same

Ms Speaker Motion moved

Shri K Venkatrama Rao (Chinna Kondur) Mr Speaker Sir I beg to move On page 4 in paragraph (b) of sub clause (a) proper Housing for Labour
of Clause 4 for the words nominated by the Government
substitute the following words namely

elected by the Hyderabad Legislative Assembly from among its members according to the punciple of proportional representation by means of a suigle transfe able vote

Mr Speaker I think this amendment is the same as clause (b) of Shii V D Deshpande's amendment. This need not be taken separately

Shr: VB Rayu Dote it mean all the twelve members Sur ? In paragraph (b) it is stated that only 6 persons nominated by the Government be elected

Mr Speaker I think 6 persons noministed by the Gowern ment one of whom shall be a women. This is confirred to that There is no difference. So this amendment need not be moved of course the word a woman has not been included the amendment as moved by Shia Venket Rama Ruo and the amendment moved by Shia V D Deshpande are similar

An hon Member There is a difference Sir According to Shri V D Deshpandes amendment arts pe sons are to be elected by the Hydersbud Legislative Assembly The other amendment was that they be elected by the Hydersbud Legislative Assembly from among its member and the member of the words from among its members are important Sir.

Shri V D Dishpande It is an over sight. I may be allowed to amend that and add the words from among its members after by the Hyderabad Legislative Assembly.

Mr Speaker The Hydershad Legislative Assembly is not probably going to elect Outsiders

So Shu Venkat Rama Rao s amendment need not be moved Next Shu G Steeremulu

Shri G Sreeramulu I beg to move

Shrs Shamrao Nask I have suggested other amendments also

Mr Speaker Yes but what about this amendment? You want three representatives to be nominated by the Government That is what you mean?

 $Sh_{P} V B Rapu$ His amendment would mean three in cluding a woman

Mr Speaker Three persons elected by var our represents t ves What does it mean? When the various representatives of trade unions and employees elect their representatives how does the question of consultation erise?

Shrs G Steeramulu They should be elected by the employees only whether they represent their union or not. This should be left completely to the employees

Mr Speaker The hon Member says representative bodies or trade unions? The representative bodies may be of such type where they are in the form of trade unions also

Shrs G Steeramulu These representative bodies may be different from trade unions 'That is why I used the word ' or

Mr Steaker In consultation with their respective organi Why should this find a place here? They can do it privately at the time of election. Does he mean to say that they should be nominated by the various representative bodies in consultation with tende unions?

Shri G Sreeramulu Instead of this they may be elected by the employees

Mr. Sheaker. It may give some meaning if the hon. Member puts it as The Government should nominate in consultation with the representative organisations. Election and then consultation with the representative bodies is not understandable to me at least

Shrs G Steeramulu Then the amendment up to the word bodies may be retained and the words following or may be deleted

Mr Speaker In consultation with the r respective organi These words should be deleted Then the amendment

for proper Housing for Labour would 1 ad as follows Substitute the following paragraph namely -

Three persons elected by the va ious representative bodies or trade unions of employees

Ms Speaker Shrt Shamrao Naik

Shr Sharmon Nash M. Speake: Sn without cast ng eaps appression on the introttons of the Government I would like to make a suggestion that when the Government intends to make promose first proper housing of libour and thereby try to improve the housing conditions of the labour class they should also see to it, that the rights of the people are recognised in these days of democatey. I should say the amendments that I have suggested are only based on the pumples so of democracy.

The Constitution of the Corporation is laid down in the still is fully based on the pi nepic of nomination only. No doubt the Government has to look after the interest of the labour class well as the capitalists. But in spice of all that the principle of democracy has to be recognised. This principle has been recognised throughout the world and decisions are conducted in accordance with that principle only. I feet the same principle has been remained be applied to Corporations and the like materialisms. On causes decred element supple is all yelicities and the life that the the things of the contract of the contrac

of the three one shall be a woman to reprisent the intress of the women I have show suggested in my amendrament to past graph (o) of sub cleans (a) that three members should be sub-timited by two I hat way, the Gowerment can execute its descence and normand says two persons who are expects as the descence and normand says two persons who are expects as a secondance with the principle of demoncary that the migraty should consent of elected Membern, I have made some change, and the comment of the consensation of the complex shall be normanded by the Government for represent the indexes of the employees which I have deed in my assurantment

In the Bill, equal representation was given to the employers, acquaints and employers. But, I should say, that the purpose of the Bill is to improve the housing conditions of labour case and as such it is nearling that these should be majority of labourers and the Corporation. Only with this pursciple in view, I have say, instead of 3 Metchest being nonmand by the Government Of course, the two Metabers, who will represent the employers, will use be elected. It will, therefore, be clear that have made no datactons or parently whatsoever and that the Corporation will threely consist of both elected and mominated Members. That is to say, on this basis, there will be a combination of experience of the conditional in a send manner.

In my opinion, the present Government is more fevourable to the employers, as they represent that class only. To avoid has, and in view of the fact that nominated elements, in my opinion, will give ruse to favountism and nepotians, and will thus make the working of the Corporation very difficult, I plead, in the interests of the labour class, that my smendment be accepted and duly passed by the House

Thank you

Shr M S Regalugam Mr Speaker, Su, In the light of the discussions that have taken place here, though, the problem appears to be very small, I feel, it is stringer at the fundamental bases of proportional representation by single transferable vote. The question is whether we should extend this proportional representation to bodies like the Housing Corporation also

As fat as my knowledge goes wherever the administrative aspect of the question dominates it is quite essential that under these c reumstances the principle of proportional representation must not be accepted It is not because I am not a democrat that I am not accepting it it is because I feel that there are certum defects which every one knows and when any one is asked to function in that particular capacity he may very well tell the same tale. In the light of this I wish that the present idea of accepting amendments as far as the principle of pioportional represent ton goes be not agreed. It is also essential that this should not be care ed to that level unless and until the House is convinced and at the same time the administrative heads are convinced that there is responsive to operation from all parties and that ti ey will be able to get men of agreeable temperament to funct on on bodies like this If that is not the case it will be very difficult

There is another aspect of the question which has been drawn here namely the representation of various Trade Un ous. The representation of the var ous Trade Un one could be effected in two ways We can have some ndirect way of election say roo members of a Trade Union being represented by one or so-and then bing them on to the bodes. That is one method. The second method is that we could say that in view of the fact that there are major organisations I ke I N T U C Hydersbed branch etc they could send their tentesentatives on to these bodies But so far as the representation of the Trade Unions on these bodies is concerned. I am of opinion that if we ask the Unions to send the elected representatives they may not be in a position to see eye to eve with the administrative aspect of the whole question. It is always better that in administrative matters for good or bad whether there be nepotism or favouritism-it will be of great advantage even for the Opposition or even for those who propose the Bill that the responsibility of such thing is placed in one and the same individual Minister or party who represents the functions of this particular Corporation, and that will make matters casier As such I feel that so far as the question of representation. of the Irade Union members on these bodies is concerned we shall not press very much for that as suggested in amendments I would leave it to the administrative authorities themselves to have their own choice

Then as fir as the experts question is conceined there should not be any difference of opinion regarding the number that is mentioned one or two more experts we could have there and it would be advisable also if, by way of experience, it is found that we need certain experts of a different type, they may be included there time and on and some provision can be there

I thus that unless and until the question of policious is new, such as theseferance made by my bin finish with signated our university and the representatives of the Legislative Assembly Members on it, due question of proportional representation should not use it is a question of proportional representatives and the second of the proportional representatives the second of the proportional representatives and the second of policy-making and wherever it is a question of policy-making as a democat, we should have proportional re-doubt-making as a democat, we should have proportional demonstrate, we should not go must that, leave, I am afined that our other considerations which ought not be mentioned here patternally on twe of general human weakness—step in their and that our complicates the problem and the purpose of the whole institution

Therefore, I conclude that the principle of proportional represensation can not be accepted and the representatives of the Trade Unions as is envisaged by the Opposition Benches also not agreed upon at this juncture especially

Shn L K Shroff Speaker, Sir Clause 4 of this Bill is a very important one inasmuch as the constitution of a Corpor atton which deals with the big affair of the housing problem of labour is considered in it.

Various amendments have been put forward all of which at tempt at bringing in the idea of representation by election to this Corporation In this connection I beg to submit Sii that this Corporation is only a body meant for constructing houses for the labour population of our State. The only policy that this body has got to deal with is the constituction of houses and except that there is no other policy with which it is concerned In such a case there is no question of representation of various interests of the Assembly or any other body by election to this Corporation The idea of nomination is there because always this body has got to function in a very businesslike manner and efficiently too and has got to turn out good work very quickly. The principle of nomination works out very satisfactorily in such matters. If election is adopted I am afraid the Corporation might become another body another battle ground for the different interests to fight against each other

Labous unfortunately in our country as well as in other countries I believe, as still a land-rand of different political paties which use it only for gunning their own interests. And as which straight better if representation is given to the various political paties that are represented in this House on the pumpies of proportional representation in an afraid the very purpose for which that Corporation is being formed use proposable will be frustated. It accomply believe that the principle of nonmation is a good one and that it will adequately serve the purpose of this Bill.

I do know that there are some defects present in this principle of nomination but those defects are remedied whom we look at the provisio mentioned liete in this connection. The representatives of the employers and the employers who will be nominated by the Government will be nominated in constitution with the different interests and so the defects of nomination will be remedied there. I therefore feel that this body should be a nominated one

Shn V B Rayu Mr Speaker Sir The orguments have centred round the principle of democracy and much brus been and I do think that the stack of democracy thit has been employed today to beat the Government is not very strong and it has field to exhieve its purpose

The Corporation is being constituted for the administration of a fund called the Labour Housing Fund and also for the defi aste functions that have been chumerated in the Bil. As far as the Government can see there are no such conflicting polices that would come for decuseron before the Corporation A specific line of action has been laid down in the Bill itself and it is mostly as some of the hon Members have said a constructive work in to nature and as I already pointed out at the time of the First Reading of the Bill commercial and technical in nature The election process that is being stressed upon is not the only process to assure democracy in this country. Even supposing that the representatives are elected from this House I do not take it that it is absolute democracy. It becomes an inducet election Can we afford to take its absolute nature? As has already been pointed out by one of the hon Members from this aide of the House if for a moment we agree that 6 members are elected from this House they should be responsible to this House. While the accounts and other things are going to be submitted to the Government and when the Government is vested with the author sty of a sperseding it looks ridiculous that a representative body of this House should be superseded by a Government which is subordinate to this House

It may in the opinion of the constitutional experts be an anomaly So I do not think that the hon Members were suggesting this

proper Housing for Labour

It must also be borne in mind that the proviso makes t obliga atory on the part of the Government to consult the respective organ sations What has been in process in respect of the other Committees is that the respective organisations are consulted to send the panels As far as possible all the interests are lept in view and it is always the case that every interest is repre et led Those who plead for wides representst on are miss no the point. In the so called elections that there are partie in this House also which may not find place even after proportional representation So a far and equitable treatment by the Government u.d.a.w.der outlook on the part of the Government in practice will naturally satisfy the desires which prompted these hon Members to bring these amendments I do not think that the hon Members will have an opportunity after the Corporation is formed to say that it has been a hand maid of the Labour Min ster or the Govern ment or the Party in power. The purpose a to astisfy the interests of a particular section as the work ne class employes in going to be compelled to m ke some contribution The funds are boing provided by the Government and the Gov ernment as an hon Member from this side of the House hus out it has a number responsibility to see that the funds are properly adm nistened For failure or success the Government will be held responsible. It should be real sed that this Corporation m an alternative to the administrative department. As I lave mentioned in this House this scheme is under implenents ion by the efforts of the department. The department can well afford to execute this scheme but what the Government thought best was that the constituting of a Corporation would cut short the red tape and also concentrate on the particular objective which could be realised very quickly. So the Corporation alould not be taken or compared with the Municipal Corporation of Hyder abad or Secunderabad Those Corporations have got wider pow ers with n their sphere and got power of taxation also. There are many other functions which they have to perform But this Cor poration must be treated as a body which is meant for a specific purpose for which a policy or a line of action is being laid by this House and the accounts will be acrutinised by the Government and a note on the accounts and working of the Corporation will be placed on the table of the House. When the general budget of the Government would be discussed when the item of loans and advances comes the hon. Members will have ample scope to vent ate then views and offer their criticisms. So when such scope had been given to this House and when the functions of this Corporation are so limited there is no purpose in insisting or un taking the fundamental punciple of democracy only for this

for proper Housing for Labour Bill while in the rest of the matters no mention has been made shout democracy or autocracy Even democracy as I mean may differ from the one that the hon Member for Ippaguda may mean As a matter of fact there is one term which cannot be understood by simple men of my type and that is being used by those people who have the same ideology is the hon Member for Ippaguda-Peoples Democratic Dictatorship and by certain important powers and by certain wides section of the people in the world It is very difficult to go into these matters and to apply this thesis to this humble Corporation So I would not like to take the valuable time of this House by going into the ments of democracy and the process of nomination

I have got a few other points to answer This Government a democratic Government and that is the resson, why the system of nomination is being considered. If this had been a nominated Government at would have been better had the demand been for election. It was said from this aide of the House that it would he very difficult to constitute an electoral college for electing labour representatives. So seen from any angle it is not possible to conduct elections Instead of building houses the Government will be spending money on the conduct of elections and this again involves election returns then tribunals and all such things. The Government is interested in building houses and not creating electron litigation

I have tried to find out if in other States there is any Cor poration constituted through the process of election. There is the Bombay General Housing Board and section 4 of that Act reada sa followa -

The Board shall consist of a Chauman and 4 other Members be appointed by the Provincial Government. That is the provision there. I have tried to find out from the Mysore State The Rules under the Act read like this

Rule 8 The Corporation shall consist of the following Members —

5 persons representing the Government nominated by the Government

5 persons representing the employers nominated by th Government in consultation with such organisations of emicyera ,

5 persons epiesenting employees nominated by the

Government in consultation with such organ sations Mysore too the p ocess observed is nomination. Then there is the Road Transport Corporation Sect on 5 of the Corporation Act reads thus

Subject to such rules made under this Act the Corpora tion shall cons st of a Chairman and such number of other Members as the State Government may think fit to appoint

So if I agree to election I think Hyderabad will be the first to introduce this process. Whether it is going to achieve the objective for which this Bill is being brought or whether it a to defeat the very purpose of the Bill I will not be able to say at this moment But in any case I can say that for the good work ng of the Corporation for the amouth working of the Corporation if the Government is relied upon that I would give widest representation and take the widest opinion-if that confidence is reposed in the Government-I am sure the nom nation method will bring success and the Corporat on will work successfully. The House is always competent to change the Bill or the mode of the Bill and the process of constituting the Corporation If it is found that this nome whon method has failed to achieve the objective for which the Bill is prepared then the House can rectify it and I do not think hon Members on this side of the House would then oppose the process of election

So after these claufication the hon Members will please conaider whether they should insit their amendments being put to vote. There are more importent things than the process of consututing the Corporation and there we will have to put our heads together and the most important thing is finding finances for this Corporation The hon Member for Ippaguda remarked at the beginning only that finance constitutes a very important factor for this Corporation and a more important work lies shead

So let us not take much time in determining the process of election and let us proceed with the work as the Government vienalise at this moment

Thank you

Mr Speaker I shall now put the amendments to vote

Shri V D Deshpande Speaker Sir I want that my amend ment be put to vote

Mr Speaker The question is

"That the following sub-clause be substituted on page 4. for sub-clause (2) of clause 4 of the said Bill, namely -

a Bill for making Province for proper Ho using for Labou I want the words before recreat on I fac littles not after

Sir section to (1) Provision of gardens playgrounds and recreational facilities I want to amend and also educational facul tree

Mr Speaker Is there any difference in the wording that a typed here and the wordings of the amendment originally fabled?

Shrs Rang Rao Deshmikh There is some difference Sir There should be after playgrounds educational and recres tional fac l ties

Mr Speaker The provision of gardens playgrounds and educational and recreations facilities will serve the purpose Otherwise it may read as provision of gardens playgrounds recreational and also educational facilities

Shrs V D Deshpande He wants educational after recrea tional That is to say be wants and also educational fac lit es

I think it will read like Provision of gardene playgrounds and recreational and also educational facilities. That does not make much difference

Shri V B Rami I am able to see the difficulty I can accommo date one and and not two ands

The mover may be satisfied by this provision of gardens playgrounds educational and recreational facilities

Shrs Rang Rao Deshmukh educational and recreational facilities will do

Mr Speaker There is already one and

Shn V D Deshpande We can put a semi colon and say recreational and educational facilities

The clause is pecific and I do not find it necessary to have say further discussion on this point. We have got clause as independently for that outpropes for which the amendment is moved.

Shit V B. Rays Mr. Speaker Bir the speech runde by the mouver was meant for the first resulting and not for the account reading. I was untile to follow what he wented that I should do in the natter As was just now pointed out, shready claime as juvenes. the Government with powers to acquire land. The definition of land under the Land Accusation. Act is

Land' includes benefits to arise out of land and things attached to the earth or permanently fastened to anything attached to the earth

Thus the definition of 'land' under the Land Acquisition Act includes all buildings or anything standing on the Indd Clause 29 of the Bill provides such power for acquiring land

19th July 1952 li the Corporation feels it necessary it will definitely acquire those properties. The hon Member should however keep m mind that the buildings that are meant to be constructed for workers are of a definite pattern and no money of the Corporation should be wasted in acquiring palaces and paying compensation therefor This is not the purpose of the Corporation and so if such power is to be provided for the Government it is already there Acquisition of property and redistribution of property is not the job of the Corporation. It needs a wider legislation and cannot be covered by a Corporation of this nature. Therefore this amendment will be redundant and also unnecessary

Shru G Sreeramulu As I have already submitted I have brought in my amendment just as a recommendatory one to bring to the notice of the hon. Minister the urgency of the problem our provision of houses for labour class. Now, as the hon Minister for Labour has assured me of moving in the direction I beg leave of the house to withdraw my amendment namely

That the following sub clause be inserted on page q after sub clause (4) of clause 18 of the said Bill -

'(s) The Corporation with the prior permission of the Government shall take necessary steps towards acquisition of houses and hungalows close to the factories for the sums and objects of this Act and to take over houses and bungalows in the other parts of the place where the said Act is enforced to adjust the non labour class vacating their residence close to the factories by fixing a maximum holding of residential area."

The amendment was by leave of the House withdrawn

Mr Speaker The question is

"That clause 18 of the Bill stand part of the Bill "

The Motion was adopted

Clause 18 was added to the Bill

Business of the House

Ms Speaker In exercise of the powers conferred by Rule 130 C (1) of the Provisional Rules of the Hyderabad Legislative Assembly the Rajpramukh is pleased to allot the following days, for living before the Assembly a supplementary statement of expenditure for the year 1952-53

19th July 1952 For laying before the House the supplementary statement of expenditure for the year 1942-43

2044 22rd July 1952 For voting and discussion on these demands as required by (a) and (b) of Sub Rule (2) of Rule 130

Now the hon the Finance Minister will liv on the table of the House the supplementary statement of expend ture for the vesr 1952 53

Di G S Melhote Vir Speaker Sir I beg to lay on the table of the House a supplementary statement of expenditure for the year 1952 53 for a sum of aggregating Rs 50 00 000 under the head 23 Appropriation for Redemption of Avoidance of Debt (Supplementary Appropriation charged) and Rs I I of 000 under voted items. This has the recommendation of the Rajpramukh

Mr Speaker As comes of the statement of expend ture are being distributed to all the hon Members

We shall proceed with the Bill relating to housing for Labour There are no amendments to clauses 19 to 23

The question is

That clauses 10 to 23 stund part of the Bil

The Motion was adopted

Clauses 10 to 23 were added to the Bill

Mr Speaker I think all the hon Members have received the statement of expenditure. Is there any one who has not received?

Shr: B D Desh nukh (Bhokardan General) What about decising of holidays on Monday and Tuesday Sir

Mr Speaker We have already fixed work for Monday We shall consider that question on Monday

Shrs Jagannath Rao Chandarks There are only three more amendments to the Housing Bill and it is better we finish that Bill new

Mr Speaker Now time is up let us adjourn till Two of the Clock on Monday

The House then adjust sell till Two of the Clock on Mo lay the Sist July 1982
