Sec

We beg to bring the following things to your kind notice and hope we would be done all the justice

We are Inter and Matric Trained candidates of the office of the Inspector of Schools Warungal working for a long time on a grade of 65 115 We possess all the qualifications necessary for the promotion to the higher grade of us 115 with all our insututional certificates experience and recommendations of our immediate officers Still when we applied for it we got i first refusal on the ground that the DI has been duested to grant grades preferring the Γ Scs and the Ubhrya Bhraha Praving (UBP)
While the need of the candidates of the other subjects is no ics. than the former with the increase of Primary and Middle Schools and while there are a great many Inter and Martic Trained candi dates of Telugu, Sanakrit and Telugu Medium this sort of discrimination unone the local candidates and favourtism towards the outsiders is embrassing to us. The Government assines every time that the local tulent will be utilised to the full extent and that the the rights of the Mulkies will never in any way be made to suffer and here we are disregarded as candidates of the Osmania University and the District Training Centres

The peference of the Inter Sexuce candidates, while it revales in the metase of the already builty number of the non-Mulkoes settled subar by foul thin by fair means that of the UB Pyrmus in onte of the Inter Telagy candidates and Matrice Trained through Telagu is a boon to the outsiders and a curve and a shame to the people of the State. It is nothing isse than a guess disregued to State University and the Government that runs at

Again, while on the one side UB Prayma is a pusely outside degree at a sentantiang on the other soft how the possessors of at could manage to get their Multi certificates so essential for drawing the salary amounts. The preference of the UBP by the Government comes thus as an encouragement to produce false Multic certificates and to settle the non multipse permanently in the place of the Multices at the cost of their own for feature and destroyal. Beades this there is the Nepotiam (caste feeling*) reigning guerne and being encouraged by critical lower and higher officers of the Department. They look down the Mulkies ignore their official recommendations and even the laid down rules are wolated if he is a Bahaman plus in outsider.

The fate of the ever unfortunate multies once under the autocistic bases regime and now under some self interested and corrupt officials, trying to be at them from entering anto the Government administration and bringing them down thus remains sealed

We beg you therefore to kindly consider all these things and do us justice $% \left\{ 1,2,\ldots,n\right\}$

Thanking you We beg to remain Yours furthfully
